

Access and Forklift Ireland

Access and Forklift have over 20 years experience in the access hire, sales and training industry in Ireland. Based in Limerick, we are now the premier access training provider for all personnel working in the industrial, construction and private sectors.

Building on our expertise in the access industry we are pleased to announce an exclusive partnership with Ridgeway Plant to sell and market the Instant Upright Alloy Tower brand.

INSTANT

QUALITY & STRENGTH YOU CAN TRUST

Instant Upright are the global market leader in alloy tower systems and are manufactured exclusively in their state of the art factory in Dublin. Their towers are exported to over 40 countries worldwide.

Buying Instant means buying Irish and supporting local industry and jobs. Buying Instant towers from Access and Forklift gives you the best tower in the Irish market, supplied by the leading tower training and support company in Ireland.

Instant Products Stocked:

Snappy

The Snappy is a lightweight, heavy duty work platform which folds out and assembled in seconds. Highly versatile, they can be combined with Instant Span Tower Systems to gain working heights up to 4m. Used by many different trade types such as decorators, electricians, heating and ventilating contractors and sign-writers, Snappy provides a robust work platform which can be transported in a small van.

500x

Span 500 is a new, highly adaptable, fastrack tower system featuring 500mm rung spacing and integral weldless ladder side frames aimed primarily at the rental market. This Instant tower can be constructed in 0.5m increments and does not need separate guardrails, giving greater flexibility and fewer components in your inventory. The Z-configuration bracing pattern enables quick, hassle free assembly whilst providing a very rigid structure.

Advanced Guardrail

The new Instant AdvanceGuard is an advanced guardrail system that provides total fall prevention for the operator throughout assembly and dismantling of all towers. In one versatile unit the AdvanceGuard collectively prevents the risk of fall from height. From the ground level up, the operator using AdvanceGuard is ensured a safe and secure environment to carry out their work at height. Suitable for all Instant Span Towers.

Spandeck

Instant Spandeck, is a lightweight aluminium walkway, bridging and staging system in ONE versatile unit. It has a unique reversible design which allows it to be used individually as a walkway or side by side as staging. Spandeck can be inverted and used in multiple combinations to provide decks spanning from 3.7metres or 12 feet up to 9.1metres or 30 feet and working platform areas of virtually unlimited dimensions.
