

Weldmesh®

THE MOST COMPREHENSIVE
& WIDELY USED RANGE OF
WELDED MESH FENCING
ROLLS IN THE U.K.,
AVAILABLE IN THREE
DIFFERENT MESH
PATTERNS.

Benefits

Built in rigidity

A rigid fence, all styles constructed from welded wire mesh from a high rigidity wire of either 2.50 or 3.00mm diameter.

Easily and quickly installed

Can be installed on any type of steel, concrete or even timber posts.

Versatile

Available in either 50 x 50mm (approx.) square mesh or 75 x 25mm (approx.) rectangular mesh in heights from 900 to 3000mm with either galvanised finish or 1000mm to 2500mm galvanised PVC coated finish.

Stylish

Smart and attractive appearance providing perimeter protection with high degree of visibility.

Wide range of applications

Weldmesh Security Fencing Systems are one of the most comprehensive and widely used ranges of welded mesh fencing products and are designed to cover the broadest spectrum of applications in almost every category of the modern fencing market.

Wire mesh

Supplied in rolls, Weldmesh is a fully welded fence, manufactured in a square or rectangular mesh from steel wire, welded at each intersection and is available either in a galvanised finish or galvanised and green plastic coated.

Specification - Light

Mesh Pattern: *50 x 50mm – rectangular mesh electro-resistance welded at each intersection

Nominal Wire Size: 3.00mm diameter overall – 2.50mm core at 50mm centres

Finish: Galvanised in heights from 900mm to 2400mm. Galvanised and green plastic coated with galvanised substrate in heights from 1000mm to 2500mm

Presentation: Flush edges all round

*Plastic coated rolls – 2" x 2" mesh size

Specification - Medium

Mesh Pattern: *50 x 50mm – square mesh

electro-resistance welded at each intersection

Nominal Wire Size: 3.50mm diameter overall – 3.00mm core at 50mm centres

Finish: Galvanised in heights from 900mm to 3000mm. PVC in heights from 1000mm to 2500mm

Presentation: Flush edges all round

*Plastic coated rolls – 2" x 2" mesh size

Specification - Heavy

Mesh Pattern: *75 x 25mm – rectangular mesh electro-resistance welded at each intersection

Nominal Wire Size: 3.50mm diameter overall – 3.00mm core at 75mm centres

Finish: Galvanised in heights from 900mm to 3000mm. PVC in heights from 1000mm to 2500mm

Presentation: Flush edges all round

*Plastic coated rolls – 2" x 2" mesh size

WELDMESH LIGHT – 25M ROLLS – GALVANISED

Fence Height m	Mesh x Wire mm	Weight Kgs
0.9	50 x 50 x 2.50	35.8
1.2	50 x 50 x 2.50	47.3
1.4	50 x 50 x 2.50	55.0
1.5	50 x 50 x 2.50	58.9
1.8	50 x 50 x 2.50	70.5
2.1	50 x 50 x 2.50	82.0
2.4	50 x 50 x 2.50	93.6

WELDMESH MEDIUM – 25 – 12.5*M ROLLS – GALVANISED

Fence Height m	Mesh x Wire mm	Weight Kgs
0.9	50 x 50 x 3.00	51.8
1.2	50 x 50 x 3.00	68.1
1.4	50 x 50 x 3.00	79.3
1.5	50 x 50 x 3.00	84.8
1.8	50 x 50 x 3.00	101.5
2.1	50 x 50 x 3.00	118.0
2.4	50 x 50 x 3.00	134.8
2.7*	50 x 50 x 3.00	75.8
3.0*	50 x 50 x 3.00	84.2

WELDMESH HEAVY – 25 – 12.5*M ROLLS – GALVANISED

Fence Height m	Mesh x Wire mm	Weight Kgs
0.9	75 x 25 x 3.00	68.2
1.2	75 x 25 x 3.00	90.4
1.425	75 x 25 x 3.00	107.1
1.5	75 x 25 x 3.00	112.6
1.8	75 x 25 x 3.00	134.8
2.1	75 x 25 x 3.00	157.1
2.4	75 x 25 x 3.00	179.3
2.7*	75 x 25 x 3.00	100.8
3.0*	75 x 25 x 3.00	111.9

WELDMESH MEDIUM – 25 – 12.5*M ROLLS – PVC COATED GREEN

Fence Height m	Mesh x Wire mm	Weight Kgs
1.00	50 x 50 x 2.95/2.45	42.2
1.22	50 x 50 x 2.95/2.45	50.6
1.83	50 x 50 x 2.95/2.45	73.8
2.51*	50 x 50 x 2.95/2.45	102.9

WELDMESH HEAVY – 25 – 12.5*M ROLLS – PVC COATED GREEN

Fence Height m	Mesh x Wire mm	Weight Kgs
1.22	50 x 50 x 3.50/3.00	71.4
1.83	50 x 50 x 3.50/3.00	105.5
2.01	50 x 50 x 3.50/3.00	116.9
2.51*	50 x 50 x 3.50/3.00	117.3

Applications

Light: Sports, leisure and play areas

Medium: All types of perimeter applications including commercial/ industrial and recreational areas

Heavy: For all commercial and industrial premises and sites requiring a high degree of security
