# Specialist Alloy Tower and Spandeck Applications

Over the years Ridgeway have been involved in numerous specialist access applications where our product specialists and suppliers have worked together to engineer, design and supply specific solutions for complex access requirements. Our specialist service includes assessing your requirements, on-site visits leading to

the design of a suitable system, a detailed costing, hire of the kit to build the access design and help on site during the build and dismantle process.

**To arrange an on site visit or discuss your unique requirements with one of our access specialists, please call: 028 9045 4599.**

## Combisafe

Combisafe is the global market leader in temporary edge protection systems. Ridgeway are its exclusive local partner in NI and can hire or sell the entire range of Combisafe products to fulfil your edge protection requirements.

As advocates of pre-planning of temporary edge protection, Combisafe works with clients at the earliest possible stage in the

construction process to ensure that the most appropriate, safe and cost-efficient system is designed and used. With its extensive range of products and bespoke systems, Combisafe can provide the best possible fall-safety solution.

**To arrange a site visit and assess your edge protection requirements please call 028 9045 4599.**

# Safesite: System 2000

System 2000 is a revolutionary edge protection system that has been specifically designed for applications where regular access for inspections and maintenance is required. The unique design enables an edge protection system to be installed without the need to break through the membrane of the building's roof. The system is a modular system and has been designed to fit all shapes and sizes of roof, even circular.

**Ridgeway can provide a design service, roof survey and advice on the system required as part of our hire service. To speak to a specialist please call: 028 9045 4599.**

# Haki Stair Towers

Haki is the leading stair tower in the global market place, offering quality and flexibility on site. Ridgeway offer a full stock of the Haki product enabling a variety of heights and unique requirements to be achieved. The Haki tower can be easily moved and craned on site and its flexibility to meet 2m, 1.5m, 1m and 0.5m flights enables it to access all levels. Ridgeway can offer a tower planning service that will design a tower to meet your exact needs.

**For hire rates and to discuss your height and level requirements please call 028 9045 4599.**

# Powered Access

---

Ridgeway offers a range of powered access and podiums for hire to the industrial and shopfitting markets.

---
