Suppliers of Portable Pedestrian & Traffic Barrier Systems

Oaklands Plastics has a wide range of barrier systems to cover all aspects of SAFETY for the protection of pedestrians, construction workers, motor traffic and security. Barriers are produced to the highest quality using prime polyethylene, and for larger quantities can be produced in a wide range of colours. Most designs can be water or ballast filled and all are fully inter-lockable, giving strength and versatility for ease of storage and transportation. Barriers are stackable within their individual design. All products are manufactured to ISO 9001 standard at our premises in Birmingham, England, and can be distributed throughout the world.

Applications to suit:

- CROWD CONTROL
- TRAFFIC DELINEATION
- PROTECTION OF CONSTRUCTION SITE STAFF
- PEDESTRIAN CONTROL
- SPORTING EVENTS
- TEMPORARY ROAD CLOSURES
- RACE TRACKS
- PUBLIC WORKS
- SITE / WORKS SECURITY
- GOVERNMENT FACILITIES
- INDOOR/OUTDOOR EVENTS
- AIRPORTS
- FLOOD CONTROL
- ANY EMERGENCY

All these products can be recycled ♻️
