

Are your staff trained in the safe erection of Mobile Access Towers?

Ridgeway offer the most advanced access training courses in the Northern Ireland market at our CITB and PASMA approved training centre.

Our 1 day courses are developed by the governing body of the access tower industry PASMA, and delivered by PASMA trained and approved instructors.

The course will enable your staff to safely, confidently and competently erect mobile access towers in accordance with WAHR requirements.

Our fully inclusive courses consist of

- Tea / Coffee on arrival
- Morning session on theory and demonstration of Mobile Access Tower Systems from a qualified PASMA instructor
- Lunch
- Afternoon session of practical, hands on tower erection and dismantle with PASMA instructor
- On passing the course each person becomes PASMA registered and receives a PASMA training identity card covering erection of mobile access towers throughout the UK
- Courses are held every week in our Belfast training centre. 103 Airport Road West Belfast BT3 9ED
- Discounts are available for 2 or more staff from an individual company.

NOTE : All courses are eligible for CITB grants.
