

Span Tower Range

Incorporating the 300, 400 and 500 systems

Instant UpRights Span Tower System Range is a highly durable, strong mobile tower system, with a 10 year warranty. Our system using the rib-grip joint is three times stronger than welded joints offering a higher return on investment. All Span Towers are available in both narrow and wide versions.

key features

- Highly versatile tower system with platform heights up to 12m. (Working height 14m).
- Instant UpRight engineering team can offer bespoke solutions to match customer needs.
- Available in both single & double widths with stairways.
- 10 year warranty.

Span Tower shown here is the Span 500 with Advanced Guard Rail in painted finish, the Span Range is also available as standard without the Advance Guard Rail
